

Training A New Generation Of Farmers And Agricultural Entrepreneurs To Implement The Concept Of Circular Economy In Agriculture

The Project

The aim of the TANGO-project is to provide interested farmers and breeders with **free training** to acquire knowledge, skills and competences in the field of agro-environmental technology for a sustainable agriculture, through a new curriculum created in the context of Circular Economy.

Training Program

The training program will be organized into the following nine modules:

- 1) Classification of agricultural biomass
- 2) Valorization of agricultural biomass
- 3) Valorization of agro-food co-products, by-products and organic residuals
- 4) Classification of agricultural plastic waste
- 5) Collection, transportation and recycling of Agricultural Plastic Waste (APW)
- 6) De-contamination and valorization of Agricultural Plastic Packaging Waste (APPW).
- 7) Waste/Biomass legislation
- 8) Environmental, territorial and economic planning, associated with each form of valorization
- 9) Advantages and disadvantages associated with each possible form of valorization

The training will take place in **Athens, Volos and Thessaloniki.**
